

# LSI LED XCN3

## Pedestrian & Area Lighting

Ideal for office complexes, campus sites, outdoor mall areas and walkways that demand ultramodern architectural design and energy-saving LED technology.

- Sleek two-arm design creates floating disk appearance.
- Designed without finned heat sinks to spoil the look or collect dirt, grime and films.
- Superior light distribution patterns and lumen output. Available in Types 3, FT & 5.
- Tremendous energy savings - up to 46% compared to metal halide.
- Energy-efficient options of 0-10V dimming and bi-level switching available.
- 5-year warranty
- IP65

## Built to Last

Designed and built around LSI's own Crossover LED lighting technology and SmartTec intelligence platforms, our LED solutions are second to none. This ensures optimum fixture performance, energy efficiency, delivered lumens per watt, longevity and an impressive ROI.

## Available for New Construction & Retrofit Projects

**Choose from LSI's Wide Offering of Poles for a Complete Fixture Assembly** Steel or aluminum poles are available with round or square shafts

Each pole is finished with a baked-on polyester-powder finishing giving the pole an exceptionally attractive appearance. The process electrostatically applies and thermally fuses a polyester powder to the pole. This unique protection process provides an extremely smooth and uniform finish to withstand extreme weather changes without cracking or peeling.

Steel poles are finished with LSI's patented DuraGrip® finish process and carry a five-year limited warranty. When LSI's DuraGrip Plus finish is used a seven-year warranty applies.

**Ordering your LED fixtures and poles from LSI guarantees a continuous color match for the assemblies.**
